ID	Title	Suite	Status	Comment	Link to Issue
Q88-508	TC_MP_001 - Checking the display of the header	Mainpage	passed		
Q88-621	TC_MP_002 - Successful Login with Valid Credentials	Mainpage	passed		
Q88-622	TC_MP_003 - Login with Invalid Email Format	Mainpage	passed		
Q88-623	TC_MP_004 - Login with Unregistered Email	Mainpage	passed		
Q88-624	TC_MP_005 - Login with Empty Required Fields	Mainpage	passed		
Q88-625	TC_MP_006 - Login with Incorrect Password Containing Spaces	Mainpage	passed		
Q88-626	TC_MP_007 - Login with Leading/Trailing Spaces in Email	Mainpage	passed		
Q88-627	TC_MP_008 - "Remember me" Functionality with Valid Credentials	Mainpage	passed		
Q88-628	TC_MP_009 - Open "Restore Access" Pop-up from Login Pop-up	Mainpage	passed		
Q88-629	TC_MP_010 - Open "Registration" Pop-up from Login Pop-up	Mainpage	failed		
Q88-630	TC_MP_011 - Restore Password with Registered Email	Mainpage	passed		

Q88-631	TC_MP_012 - Restore Password with Unregistered Email	Mainpage	failed		
Q88-632	TC_MP_013 - Restore Password with Invalid Email Format	Mainpage	passed		
Q88-633	TC_MP_014 - Restore Password with Empty Email Field	Mainpage	passed		
Q88-634	TC_MP_015 - Close "Restore Access" Pop-up	Mainpage	passed		
Q88-635	TC_MP_016 - Registration with Valid Data	Mainpage	passed		
Q88-636	TC_MP_017 - Registration with Already Registered Email	Mainpage	passed		
Q88-637	TC_MP_018 - Registration with Invalid Email Format	Mainpage	passed		
Q88-638	TC_MP_019 - Registration with Password Shorter Than Minimum Length	Mainpage	passed		
Q88-639	TC_MP_020 - Registration with Password Longer Than Maximum Length	Mainpage	passed		
Q88-640	TC_MP_021 - Registration with Password Mismatch	Mainpage	passed		
Q88-641	TC_MP_022 - Registration with Verify Name and Last name validation with invalid lengths_1	Mainpage	passed		
Q88-642	TC_MP_023 - Registration with Verify Name and Last name validation with invalid lengths_2	Mainpage	passed		
Q88-643	TC_MP_024 - Registration with Verify Name and Last name empty validation	Mainpage	passed		
Q88-644	TC_MP_025 - Registration with Verify Name and Last name validation with invalid characters	Mainpage	passed		
Q88-645	TC_MP_026 - Verifying the display and operation of the elements in the first information block	Mainpage	passed		
Q88-646	TC_MP_027 - Testing video/media playback in the first information block	Mainpage	passed		

Q88-647	TC_MP_028 - Verify the display, hover state, and clickability of the cards in the second section of the home page	Mainpage	failed		
Q88-648	TC_MP_029 - Verifying the display and functionality of the Contacts module	Mainpage	failed		
Q88-649	TC_MP_030 - Checking the Footer Display and Text	Mainpage	passed		
Q88-677	TC_GP_FEXP_001 - Open Guest profile	Guest Fuel Expenses	passed		
Q88-679	TC_GP_FEXP_002 - Open Guest Fuel expenses tab when no car exists	Guest Fuel Expenses	passed		
Q88-680	TC_GP_FEXP_003 - Redirect to Garage from Fuel expenses empty state	Guest Fuel Expenses	passed		
Q88-681	TC_GP_FEXP_004 - Open Fuel expenses tab when user has a car but no expenses	Guest Fuel Expenses	passed		
Q88-682	TC_GP_FEXP_005 - Open Add an expense popup	Guest Fuel Expenses	passed		
Q88-683	TC_GP_FEXP_006 - Display Fuel expenses table	Guest Fuel Expenses	failed	The Mileage field accepts non-numeric characters. The value "1000oo" is saved and displayed in the Fuel Expenses table.	https://jira.ithillel.com/browse/QM2643-159
Q88-684	TC_GP_FEXP_007 - Select car in Auto model dropdown	Guest Fuel Expenses	passed		
Q88-685	TC_GP_FEXP_008 - Show edit and delete icons on table row hover	Guest Fuel Expenses	passed		
Q88-686	TC_GP_FEXP_009 - Open Edit an expense popup	Guest Fuel Expenses	passed		
Q88-687	TC_GP_FEXP_010 - Close Edit an expense popup	Guest Fuel Expenses	passed		
Q88-688	TC_GP_FEXP_011 - Open Remove entry popup	Guest Fuel Expenses	failed	The confirmation popup contains a typo in the message text: "Do you really wnat to remove fuel expense entry from 29.05.2026?" Expected: "Do you really want to remove fuel expense entry from 29.05.2026?"	https://jira.ithillel.com/browse/QM2643-160
Q88-689	TC_GP_FEXP_012 - Cancel removing fuel expense entry	Guest Fuel Expenses	passed		

Q88-690	TC_GP_FEXP_013 - Remove fuel expense entry	Guest Fuel Expenses	passed		
Q88-691	TC_GP_FEXP_014 - Check paginator for Fuel expenses table	Guest Fuel Expenses	failed	The paginator is displayed based on the total number of fuel expense records across multiple cars instead of the selected car only. Expected: The paginator should be displayed only when the selected car has more than 10 fuel expense records. Actual: The paginator is displayed when the total number of fuel expense records across different cars exceeds 10.	https://jira.ithillel.com/browse/QM2643-161
Q88-692	TC_GP_FEXP_015 - Check guest data is temporary	Guest Fuel Expenses	passed		
Q88-693	TC_GP_GAR_001 - Verify empty Garage page is displayed correctly	Guest Garage	passed		
Q88-694	TC_GP_GAR_002 - Verify "Add a car" button opens Add a car pop-up	Guest Garage	passed		
Q88-695	TC_GP_GAR_003 - Verify Add a car pop-up can be closed	Guest Garage	passed		
Q88-696	TC_GP_GAR_004 - Verify user can add a car with valid data	Guest Garage	passed		
Q88-697	TC_GP_GAR_005 - Verify Add button is disabled if required fields are empty	Guest Garage	passed		
Q88-698	TC_GP_GAR_006 - Verify Mileage field validation in Add a car pop-up	Guest Garage	passed		
Q88-699	TC_GP_GAR_007 - Verify Mileage field accepts boundary values in Add a car pop-up	Guest Garage	passed		
Q88-700	TC_GP_GAR_008 - Verify user can add up to 5 cars	Guest Garage	passed		
Q88-701	TC_GP_GAR_009 - Verify "Car limit reached" message is shown after reaching cars limit	Guest Garage	failed	The system allows adding more than 5 cars. No "Car limit reached" message or popup is displayed after reaching the limit. The user can add more than 5 cars and no limit notification is displayed.	https://jira.ithillel.com/browse/QM2643-163

Q88-702	TC_GP_GAR_010 - Verify Garage page displays added car information correctly	Guest Garage	passed		
Q88-703	TC_GP_GAR_011 - Verify mileage and update date are updated successfully	Guest Garage	passed		
Q88-704	TC_GP_GAR_012 - Verify mileage validation during update	Guest Garage	passed		
Q88-705	TC_GP_GAR_013 - Verify Edit a car pop-up opens and displays saved car data	Guest Garage	passed		
Q88-706	TC_GP_GAR_014 - Verify Save and Cancel functionality in Edit a car pop-up	Guest Garage	passed		
Q88-707	TC_GP_GAR_015 - Verify Save button is disabled if Edit form contains invalid data	Guest Garage	passed		
Q88-708	TC_GP_GAR_016 - Verify Remove car pop-up functionality	Guest Garage	passed		
Q88-709	TC_GP_GAR_017 - Verify empty garage state is shown after removing the last car	Guest Garage	passed		
Q88-710	TC_GP_GAR_018 - Verify Add fuel expense pop-up opens from Garage car card	Guest Garage	passed		
Q88-711	TC_GP_GAR_019 - Verify warning message is displayed in Remove car pop-up	Guest Garage	passed		
Q88-712	TC_GP_HDR_001 - Verify Guest header and My profile dropdown are displayed correctly	Guest Header	failed	The warning message "Logged in as guest, any changes will be lost!" is displayed in the design but is missing in the application. All other header elements and My Profile dropdown items are displayed correctly.	https://jira.ithillel.com/browse/QM2643-165
Q88-713	TC_GP_HDR_002 - Verify Profile and Settings are unavailable and Log out works for guest user	Guest Header	passed		

Q88-714	TC_GP_HDR_003 - Verify guest user can navigate using Header and My profile dropdown menu	Guest Header	passed		
Q88-715	TC_GP_HDR_004 - Verify Guest header layout matches documentation/design	Guest Header	failed	Guest header does not fully match the design. The warning message "Logged in as guest, any changes will be lost!" is missing above the header. All other header and dropdown menu elements are displayed correctly.	https://jira.ithillel.com/browse/QM2643-165
Q88-716	TC_GP_INST_001 - Open Guest Instructions tab	Guest Instructions	passed		
Q88-717	TC_GP_INST_002 - Check Instructions page elements	Guest Instructions	passed		
Q88-718	TC_GP_INST_003 - Select brand from Brand dropdown	Guest Instructions	passed		
Q88-719	TC_GP_INST_004 - Select model from Model dropdown	Guest Instructions	passed		
Q88-720	TC_GP_INST_005 - Search instructions by brand and model	Guest Instructions	passed		
Q88-721	TC_GP_INST_006 - Download instruction file	Guest Instructions	passed		
Q88-722	TC_GP_INST_007 - Search instructions when more than 8 files are found	Guest Instructions	failed	Audi TT instructions are displayed when BMW 3 Series is selected	https://jira.ithillel.com/browse/QM2643-216
Q88-723	TC_GP_INST_008 - Use pagination on Instructions page	Guest Instructions	passed		
Q88-724	TC_GP_INST_009 - Search instructions when no data is found	Guest Instructions	passed		
Q88-726	TC_GP_INST_010 - Check brand and model dependency	Guest Instructions	passed		
Q88-727	TC_GP_INST_011 - Check search without selecting brand/model	Guest Instructions	passed		
Q88-728	TC_GP_INST_012 - Check Guest Instructions access after closing browser tab	Guest Instructions	passed		
Q88-734	TC_UP_HDR_001 - Checking the display of the user profile	User Header	passed		

Q88-737	TC_UP_PROF_001 - Profile tab	User Profile	passed		
Q88-739	TC_UP_PROF_002 - Edit profile: Name and Last name validation with invalid lengths_1	User Profile	failed	The name input field is not displaying correctly; it extends beyond the popup and the browser window.	
Q88-740	TC_UP_PROF_003 - Edit profile: Name and Last name validation with invalid lengths_2	User Profile	passed		
Q88-741	TC_UP_PROF_004 - Verify Name and Last name empty validation	User Profile	passed		
Q88-742	TC_UP_PROF_005 - Verify Name and Last name validation with invalid characters	User Profile	passed		
Q88-743	TC_UP_PROF_006 - Verify Country field is optional in Edit profile	User Profile	passed		
Q88-744	TC_UP_PROF_007 - Verify Country field minimum length validation	User Profile	failed	You can leave just one letter of the country and save the data; only that single letter will appear in the profile	
Q88-745	TC_UP_PROF_008 - Verify Country field maximum length validation	User Profile	failed	You can enter more than 20 characters in the country name field without an error message appearing	
Q88-746	TC_UP_PROF_009 - Verify invalid Country value	User Profile	failed	You can enter "+546" in the country field, and it won't show up	
Q88-747	TC_UP_PROF_010 - Verify valid Country value	User Profile	passed		
Q88-748	TC_UP_PROF_011 - Verify Birthday field is optional in Edit profile	User Profile	passed		
Q88-749	TC_UP_PROF_012 - Verify user can select valid birthday	User Profile	passed		
Q88-750	TC_UP_PROF_013 - Verify minimum allowed birthday year	User Profile	passed		
Q88-751	TC_UP_PROF_014 - Verify maximum allowed birthday date	User Profile	passed		
Q88-752	TC_UP_PROF_015 - Verify user can upload valid file, uploaded avatar is displayed in profile	User Profile	passed		

Q88-753	TC_UP_PROF_016 - Verify unsupported file format upload	User Profile	passed		
Q88-754	TC_UP_PROF_017 - Verify file size validation	User Profile	passed		
Q88-755	TC_UP_PROF_018 - Verify all profile information is displayed after save and refresh page	User Profile	passed		
Q88-756	TC_UP_PROF_019 - Verify data persists after re-login	User Profile	passed		
Q88-757	TC_UP_FEXP_001 - Open User profile	User Fuel Expenses	passed		
Q88-758	TC_UP_FEXP_002 - Open User Fuel expenses tab when no car exists	User Fuel Expenses	passed		
Q88-759	TC_UP_FEXP_003 - Redirect to Garage from Fuel expenses empty state	User Fuel Expenses	passed		
Q88-760	TC_UP_FEXP_004 - Open Fuel expenses tab when user has a car but no expenses	User Fuel Expenses	passed		
Q88-761	TC_UP_FEXP_005 - Open Add an expense popup	User Fuel Expenses	passed		
Q88-762	TC_UP_FEXP_006 - Display Fuel expenses table	User Fuel Expenses	passed		
Q88-763	TC_UP_FEXP_007 - Select car in Auto model dropdown	User Fuel Expenses	passed		
Q88-764	TC_UP_FEXP_008 - Show edit and delete icons on table row hover	User Fuel Expenses	passed		
Q88-765	TC_UP_FEXP_009 - Open Edit an expense popup	User Fuel Expenses	passed		
Q88-766	TC_UP_FEXP_010 - Close Edit an expense popup	User Fuel Expenses	passed		
Q88-767	TC_UP_FEXP_011 - Open Remove entry popup	User Fuel Expenses	failed	Expected Result: Do you really want to remove fuel expense entry from ? Actual Result: Do you really want to remove fuel expense entry from ?	https://jira.ithillel.com/browse/QM2643-160
Q88-768	TC_UP_FEXP_012 - Cancel removing fuel expense entry	User Fuel Expenses	passed		

Q88-769	TC_UP_FEXP_013 - Remove fuel expense entry	User Fuel Expenses	passed		
Q88-770	TC_UP_FEXP_014 - Check paginator for Fuel expenses table	User Fuel Expenses	passed		
Q88-771	TC_UP_FEXP_015 - Check guest data is temporary	User Fuel Expenses	passed		
Q88-772	TC_UP_GAR_001 - Verify empty Garage page is displayed correctly	User Garage	passed		
Q88-773	TC_UP_GAR_002 - Verify "Add a car" button opens Add a car pop-up	User Garage	passed		
Q88-774	TC_UP_GAR_003 - Verify Add a car pop-up can be closed	User Garage	passed		
Q88-775	TC_UP_GAR_004 - Verify user can add a car with valid data	User Garage	failed	During verification of all available vehicle models, three defects were identified: Porsche 911 is displayed as Ford Focus after creation, Audi Q7 is not added to Garage after clicking Add, and Audi A6 is not added and displays an internal database error. All other tested vehicle models were added successfully. Bugs reported.	https://jira.ithillel.com/browse/QM2643-189 , https://jira.ithillel.com/browse/QM2643-190 , https://jira.ithillel.com/browse/QM2643-191
Q88-776	TC_UP_GAR_005 - Verify Add button is disabled if required fields are empty	User Garage	passed		
Q88-777	TC_UP_GAR_006 - Verify Mileage field validation in Add a car pop-up	User Garage	passed		
Q88-778	TC_UP_GAR_007 - Verify Mileage field accepts boundary values in Add a car pop-up	User Garage	passed		
Q88-779	TC_UP_GAR_008 - Verify user can add up to 25 cars	User Garage	passed		
Q88-780	TC_UP_GAR_009 - Verify "Car limit reached" message is shown after reaching cars limit	User Garage	passed		
Q88-781	TC_UP_GAR_010 - Verify Garage page displays added car information correctly	User Garage	failed	Added car information is not displayed correctly for Porsche 911. After adding Porsche 911, the Garage page displays it as Ford Focus. Existing bug reported.	https://jira.ithillel.com/browse/QM2643-189

Q88-782	TC_UP_GAR_011 - Verify mileage and update date are updated successfully	User Garage	passed		
Q88-783	TC_UP_GAR_012 - Verify mileage validation during update	User Garage	passed		
Q88-784	TC_UP_GAR_013 - Verify Edit a car pop-up opens and displays saved car data	User Garage	passed		
Q88-785	TC_UP_GAR_014 - Verify Save and Cancel functionality in Edit a car pop-up	User Garage	failed	The user cannot save edited car data in the Edit a car popup. After changing the Mileage value and clicking Save, the application displays the "Not authenticated" error and the changes are not saved. Bug reported.	https://jira.ithillel.com/browse/QM2643-193
Q88-786	TC_UP_GAR_015 - Verify Save button is disabled if Edit form contains invalid data	User Garage	failed	Save button remains enabled after entering a mileage value lower than the current mileage. According to the requirements, new mileage must be greater than the previous value and the Save button should be disabled for invalid data. Additionally, clicking Save displays a "Not authenticated" error.	https://jira.ithillel.com/browse/QM2643-193
Q88-787	TC_UP_GAR_016 - Verify Remove car pop-up functionality	User Garage	passed		
Q88-788	TC_UP_GAR_017 - Verify empty garage state is shown after removing the last car	User Garage	passed		
Q88-789	TC_UP_GAR_018 - Verify Add fuel expense pop-up opens from User Garage car card	User Garage	passed		
Q88-790	TC_UP_GAR_019 - Verify warning message is displayed in Remove car pop-up	User Garage	passed		
Q88-791	TC_UP_INST_001 - Open User Instructions tab	User Instructions	passed		
Q88-792	TC_UP_INST_002 - Check Instructions page elements	User Instructions	passed		
Q88-793	TC_UP_INST_003 - Select brand from Brand dropdown	User Instructions	passed		

Q88-794	TC_UP_INST_004 - Select model from Model dropdown	User Instructions	passed		
Q88-795	TC_UP_INST_005 - Search instructions by brand and model	User Instructions	passed		
Q88-796	TC_UP_INST_006 - Download instruction file	User Instructions	passed		
Q88-797	TC_UP_INST_007 - Search instructions when more than 8 files are found	User Instructions	failed		https://jira.ithillel.com/browse/QM2643-216
Q88-798	TC_UP_INST_008 - Use pagination on Instructions page	User Instructions	passed		
Q88-799	TC_UP_INST_009 - Search instructions when no data is found	User Instructions	passed		
Q88-800	TC_UP_INST_010 - Check brand and model dependency	User Instructions	passed		
Q88-801	TC_UP_INST_011 - Check search without selecting brand/model	User Instructions	passed		
Q88-802	TC_UP_INST_012 - Check User Instructions access after closing browser tab	User Instructions	passed		
Q88-803	TC_UP_SET_001 - Verify User Settings page is displayed correctly	User Settings	failed	404 Page not found	https://jira.ithillel.com/browse/QM2643-207
Q88-804	TC_UP_SET_002 - Verify user can change Currency and Units of distance	User Settings	passed		
Q88-805	TC_UP_SET_003 - Verify Change email functionality and validation	User Settings	failed	Every time I create a new email address, I get the error "Email already exists," and I can't change the email address.	
Q88-806	TC_UP_SET_004 - Verify Change password functionality and validation	User Settings	passed		
Q88-807	TC_UP_SET_005 - Verify Remove account functionality	User Settings	passed		

Q88-660	TC_GEN_001 - Verify responsiveness of main application pages	General Checks	failed	The side menu in the "User" section does not appear on the mobile version, so it is not possible to view the sections listed on the side. As a result, the "Delete" button is not displayed correctly. On mobile resolution, the Empty Garage state is displayed incorrectly: the car icon and empty-state message are partially cut off. Additionally, dropdown components are implemented inconsistently across Garage and Fuel Expenses pages, resulting in different mobile behavior. Bug reported.
